ABOUT ME

Full-stack Developer proficient in **C#, ASP.NET Core, and React**. Experienced in building end-to-end CRUD applications with **Dapper and SQL**. Combines a strong technical support background with hands-on expertise in developing scalable, user-focused web solutions.

WORK EXPERIENCE

TaskUs | Moderator

Jan 2025 – Oct 2025

- Moderated content to ensure compliance with community guidelines
- Enforced platform standards to maintain a safe and positive online environment
- Reviewed and applied updated policies to ensure accurate and consistent moderation

IBEX Global | Technical Support

Sep 2022 – Sep 2024

- Resolved customer internet issues through effective troubleshooting and guided support
- Identified customer concerns using strong probing and diagnostic techniques
- Improved customer satisfaction by providing timely and accurate resolutions

Erovoutika | Web Dev / Digital Art Tutor and Department Leader

Feb 2022 – Jul 2022

- **Leadership:** Led a team by delegating tasks, setting deadlines, and tracking performance to ensure project goals were met.
- **Web Development & Design:** Guided students in modern web development principles and digital art concepts using industry-standard tools.
- **Mentorship:** Designed learning materials and monitored student progress, providing technical support to improve learning outcomes.

EDUCATION

Bachelor of Science in Information Technology

Our Lady of Fatima University | 2022

Senior High School

Our Lady of Fatima University | 2018

TECHNICAL SKILLS

Front-End Development: HTML5, CSS3, JavaScript (ES6+), React (Vite), Tailwind CSS, Responsive Design

Back-End Development: ASP.NET Core, Node.js, Express.js, PHP, REST APIs

Databases: Microsoft SQL Server (MSSQL), PostgreSQL, MongoDB

Version Control: Git, GitHub

Tools & IDEs: Visual Studio, Visual Studio Code, Cursor IDE, Postman

Design & Prototyping: Figma, Adobe Photoshop, Framer

CMS & E-Commerce: WordPress, Shopify

AI & Productivity Tools: Claude, ChatGPT, Gemini, Prompt Engineering

Multimedia & Content Tools: CapCut, Luma AI, Higgsfield, ElevenLabs, Suno AI

PROJECTS

Student Management System

- Built using ASP.NET Core MVC with Entity Framework, Dapper, and SQL Server
- Implemented full CRUD operations, form validation, and N-tier architecture
- Improved data handling and system efficiency through structured architecture

ScrollBook

- **Full-stack Development:** Built a personal digital library using the MERN stack (React/Vite) and Supabase for real-time data management and authentication.
- **Database Management:** Integrated Supabase as a backend-as-a-service to handle relational data storage, ensuring seamless retrieval of curated book collections.
- **Responsive UI/UX:** Architected a minimalist and high-performance interface using Tailwind CSS, focusing on mobile-first responsiveness and smooth navigation.
